Stimulate minds with your stimulus dollars.

New funding from the American Recovery and Reinvestment Act of 2009 represents an unprecedented opportunity to invest in the success of your students.

Current research confirms that high quality, data driven interventions can dramatically improve student performance.

Imagine Learning provides the best technology available to deliver measurable results and sustain student success. This supplemental program is an excellent complement to your current core curriculum and provides a solution that targets the varied needs of your students.

- **Early childhood education** students, including those in **Head Start**, other **pre-K** settings, or Kindergarten receive developmentally appropriate support through engaging activities, easing the transition into primary grades.
- **English language learners** can quickly build their Basic Interpersonal Communication Skills (BICS) and Cognitive Academic Language Proficiency (CALP) while simultaneously developing literacy skills.
- **Title I students** gain additional, differentiated support to close the gap in literacy and comprehension, thus leveling the playing field.
- **Students with disabilities** receive highly individualized curriculum through diagnostic assessment and prescriptive pedagogy.
