

# Customer Success Packages

## Prepare educators for success with new levels of professional development, support, and training

Comprehensive professional development is critical for educators to grow pedagogically shifts and excel at teaching in an online environment. K-12 educators who complete all Instructional Services Professional Development sessions are more likely to provide consistent, well-rounded instruction and positively impact student achievement.

Get support, onsite training, and leadership to ensure the fidelity of your implementation. With flexible delivery options, sessions targeted to your needs, and on-demand training, our experienced professional development team will set you up for success throughout the year.

# Comprehensive Professional Development Packages

Imagine Instructional Services Professional Development (ISPD) packages provide targeted training and practical resources that empower educators to shape their own training experience. Our wide array of services help you meet your implementation goals, support your educators and students, and maximize overall achievement.
