

Course Description:

Art provides an opportunity for children to develop the use of their senses directly and encourages the student to further develop what they already know as a source of knowledge and creativity. Art offers the student an opportunity to express feelings and emotions in their drawings and with color. Arts and Crafts promote self-esteem and self-awareness as it enhances personal fulfillment. Children have a wonderful imagination that, if encouraged, will be needed though out their life. This course provides an opportunity for self-discipline through instruction and cooperation while providing the student with an opportunity for self-expression by using imaginative thinking for creative solutions. Learners will begin the course by creating a color wheel and understanding the difference between primary, secondary, and complimentary colors. Learners will use watercolors to create a value chart and begin to understand symmetry in art. At the end of the semester students will work with clay and create a Memorial Clay.

Major Concepts:

- Primary, Secondary, and Complimentary Colors
- Value Charts
- Symmetry
- Clay
- Nature and Art

Module	Lesson Title	Objectives
Module 1	Leaf-Print Pillow	1. Create colorful prints using leaves and paint. 2. Cut and sew a pillow.
