# Real World Parenting

## Course Description

What is the best way to care for children and teach them self-confidence and a sense of responsibility? Parenting involves more than having a child and providing food and shelter. Learn what to prepare for, what to expect, and what vital steps parents can take to create the best environment for their children. Parenting roles and responsibilities, nurturing and protective environments for children, positive parenting strategies, and effective communication in parent/child relationships are some of the topics covered in this course.

## Unit 2: Self Esteem and Child Development

---

### Unit Summary

We hear a lot about self-esteem. Nearly everyone seems to agree that self-esteem is an important component of a happy and productive life. Most parents want their children to have a high level of self-esteem. But what exactly is self-esteem? What factors cause a person to have high self-esteem or low self-esteem? As a parent, what role do you have in determining your child's level of self-esteem?

In this unit we will learn what self-esteem is. We will learn how children develop their self-esteem as they grow and develop, and we will learn how parents contribute to this process.

### Learning Objectives

- Define self-esteem.
- List characteristics of a person with high self-esteem and a person with low self-esteem.
- Understand the self-esteem needs of children at different stages of development.
- Identify factors that raise and diminish a person's self-esteem.
- Understand ways in which parents influence a child's self-esteem.

## Unit 6: The Diversity of Today's Family Unit

---

### Unit Summary

Who is in your family? Around the world, families come in many different forms. In different time periods and cultures, the needs of the family influence family composition and the surrounding society influence as well. Each family form has advantages and disadvantages to which parents and other family members must respond. Culture also influences families in a variety of ways, shaping the values and practices by which they live. Unfortunately, individuals from one culture may find themselves facing stereotypes and cultural bias when they move to an area with a different dominant culture.

### Learning Objectives

- Discuss family composition and some factors that influence this aspect of family life.
- Examine the different types of families.
- Discuss the history of Western families and how family practices have changed over time.
- Consider multicultural families and the advantages and challenges that they face.
- Discuss how parents can help their families adapt to a new culture or area.
