

Virtual Speech-Language Therapy Services

FERPA and HIPAA compliant speech-language services provided from home or school location

Give students equitable access to the speech-language pathology support they need. Imagine Learning's nationally certified, fully licensed speech-language pathologists will provide virtual services to meet students' Individualized Education Plan (IEP) and successfully:

- Address the shortage of certified and licensed speech-language pathologists
- Guarantee that dedicated IEP minutes for each speech student are met
- Identify and evaluate students who may need speech and/or language therapy
- Meet all local, state, and federal special education compliance mandates
- Offer educationally-designed interventions that will address student IEPs
- Provide transparency for stakeholders through a robust reporting system for speech and language therapy minutes provided (direct and indirect)

These federally mandated therapy sessions will be customized to assist the student with meeting the educational standards required for their grade and ability levels.

Contact your account executive to start your virtual speech-language therapy service today.

Virtual Speech Therapy Works

Every identified speech impaired student deserves access to therapy

Students can now access speech and language services from school or home! Thanks to Imagine Learning virtual speech therapy services, students can receive the federally mandated IEP minutes they need through a secure and confidential platform while their school districts stay in compliance with their IEPs.

By utilizing technology in a fun and engaging way, virtual speech and language therapy are exceptionally student-friendly. Today's students are comfortable with technology and love game-based activities, and virtual speech therapy is a proven platform for interactive learning, growth, and progress.

Partner with Imagine Learning to receive:

- Safely and securely delivered therapy
- Nationally certified and licensed speech-language pathologists with school-based knowledge and virtual teletherapy experience
- All your speech-language pathologists from one place for ease in hiring, billing, management, and support
- Daily reporting of student progress and transparent, at-a-glance reporting of all compliance activities
- Seamless collaboration with school staff and support personnel

As a solutions-based education company, Imagine Learning is uniquely qualified to understand educational needs based on state standards and requirements. Our dedicated team of qualified, nationally recognized educators will ensure your students receive quality, evidence-based speech therapy services.

**Give your students the virtual speech-language pathology services they need.
