language & literacy[®]

A personalized, engaging digital solution that accelerates language and literacy skills for all

Personalized, Adaptive, Effective

Over 20 years of combining language and literacy development for all students

Imagine Language & Literacy is the only personalized learning program that accelerates both language and literacy skills development side by side. **Direct, explicit, and systematic instruction and practice** ensure students learn critical skills in four language domains. **Personalized learning pathways adapt automatically to maximize engagement and progress**, accelerating to match a cognitive leap or adjusting when a student needs extra scaffolding and support.

il imagine learning x Dr. Seuss™

Exclusive Feature

Introducing Seuss Corner

Imagine Learning's exclusive partnership with Dr. Seuss Enterprises allows us to bring you **Seuss Corner**, a digital library filled with classic Dr. Seuss eBooks and printable resources.

Why language and literacy?

According to decades of science of reading research, skilled reading is the product of word recognition *and* language comprehension. Meaning if one area is weak, then reading comprehension is diminished. That's why it's critical to teach both literacy and language skills

Studies show:

Early Literacy Success

Utah | Grades K–2

Students showed statistically significant gains in early literacy for 3 consecutive years

Adolescent Proficiency Growth

Texas | Grade 4

Students experienced significant improvements, as shown by the STAAR Reading assessment

Language Learner Success

Florida | Grades 1–5

Learners showed statistically significant gains on the WIDA™ ACCESS for ELLs® Assessment

Accelerate, Differentiate, and Target Support

An instructional model proven to accelerate learning

Our model for instruction and practice is unparalleled. Students receive direct, explicit, and systematic instruction of skills tied to a mentor text. This model is proven to improve students' academic proficiency in language and literacy skills.

Standards-aligned to ensure students are getting the right instruction and practice at the right time

Personalized learning pathways adapt to all students' needs

Reach every learner in your classroom with adaptive technology that adjusts to the individual needs of all your students simultaneously. As part of the instructional model, ongoing checkpoints that are both predictive and evaluative allow Smart Sequencer™ to map an exact path to proficiency for all students. These assessments are built just like the gamified lessons so students don't feel over tested.

Easily identify students needing extra support

Recognizing that students may need extra support with similar concepts, the **Action Areas Tool** automatically groups students based on skill or standard gaps. Teachers can assign supplemental activities to support student learning.

Students are automatically grouped.

Quickly see which students need more support with a specific skill or standard.

Assign with a click. Suggested additional

content to address skill gaps can be accessed and assigned in one place.

Build an Equitable Learning Environment for Your Diverse Body of Students

Students come to the classroom with a wide range of abilities. Imagine Language & Literacy helps all students succeed.

Emerging Readers

- ✓ Scaffolded supports built into every activity
- ✓ Direct, explicit, and systematic instruction
- ✓ Automatically revisit skills when needed

On-Target Students

- ✓ Meaningful practice tied to skills instruction
- ✓ Standards aligned for mastery
- ✓ Self-paced learning for critical literacy skills

Advanced Learners

- ✓ Students work on only the skills they need
- ✓ Personalized learning pathways accelerate progression
- ✓ Advanced content includes complex texts, challenging vocabulary, and higher-order thinking skills.

English Learners

- ✓ Strategic audio language scaffolds in 20 languages
- ✓ Specialized activities based on the student's first language
- ✓ Language instruction infused into daily activities

Customize learning with playlists

Feel empowered to curate a custom playlist at any time for any reason. Like a music streaming playlist, you can choose which activities to assign, and in which order. A playlist can be assigned to a student, a group of students, or the entire class.

Create playlists for:

✓ **Reteaching** ✓ **Enrichment** ✓ **Multilingual learners**

✓ **Standards practice** ✓ **Skills practice**

Track students' reading and writing journey with the student portfolio

Hear and see your students' reading and writing skills develop throughout the school year and even across grade levels. Audio recordings of their reading and writing samples are stored in their portfolio, allowing you to see their progress, celebrate their achievements, and remediate as needed. Now including Fluent Reader+.

Build fluency in less time with Fluent Reader+: automatic scoring for oral reading fluency

Helping your students to achieve oral reading fluency is easier than ever, thanks to Fluent Reader+. It listens as your students read and scores their reading automatically — allowing you to better monitor and support individual students on their journey to oral reading fluency. Scores are found in the student portfolio.

- ✓ Quickly identify students needing extra support
- ✓ Monitor progress of your entire class in one minute and track progress more often
- ✓ Give all students an accelerated — and independent — path to achieve their fluency goals!

Engage Students and Teachers

Encourage learning through game-based activities

Engagement is key in learning, but with social media and video games competing for attention, it's harder than ever. Our learning environment mimics the technology that engages them in their daily lives, keeping them excited to complete lessons.

Motivate engagement through play

Make learning fun with peer-modeling videos, songs, and game-based practice — all created on a video gaming platform.

Keep students motivated

Students earn booster bits for completing lessons. They can spend them on special games or to upgrade their avatars.

Teacher resources for fast and effective implementation

Spend more time teaching, not prepping! Use these convenient tools to get up and running quickly and find answers to all your questions.

Professional Learning

Craft a PL package that fits your school or district's specific needs. Choose from our virtual webinars or onsite workshops, which can be purchased independently or as packages.

Four levels of sessions available:

- ✓ Getting Started Workshops for Educators**
- ✓ Next Step Workshops for Educators**
- ✓ Leading with Success for Administrators**
- ✓ Targeted Support**

	Foundational Webinar Package	Comprehensive Webinar Package	Foundational Onsite Package	Comprehensive Onsite Package
Modality	Virtual	Virtual	Onsite	Onsite
Participants	Up to 40	Up to 40	Up to 40	Up to 40
Sessions	4 sessions	8 sessions	2 onsite days (4 sessions)	4 onsite days (8 sessions)

Customer Learning Library

A curated collection of resources such as webinars and downloads to help you get the most out of your program implementation.

Embedded Help Center
