Small Group Targeted Instruction

High-quality online interventions that support your students' learning goals

Give students the personalized, data-driven support they need and overcome staffing shortages and equity issues.

Small Group Targeted Instruction is available for math, ELA, science, and social studies. By partnering with Imagine Learning for Small Group Targeted Instruction, you will successfully:

- Address the challenge of teacher and staff shortages
- Guarantee mandated intervention time is met
- Close student learning gaps with targeted interventions
- Understand student progress and growth to meet unique learning needs

Shaped by industry experts and informed by research, certified teachers use Imagine Learning's digital curriculum to deliver high-quality, standards-aligned instruction.

Students enrolled in Small Group Targeted Instruction now have access to 1:1 On-Demand Tutoring!

Evidence-based instruction with certified teachers

Imagine Learning Small Group Targeted Instruction relies on data to identify students with shared learning needs in a particular skill, standard, or concept in the core courses starting at grade 3. Research-based best practices for instruction are incorporated and focus on repeated, targeted practice with skills and standards.

WHAT YOU RECEIVE:

- Small-group synchronous sessions provided multiple times per week on Imagine Learning's high-quality, secure virtual tutoring platform
- Sessions delivered by a certified teacher who understands best practices for interventions
- Pre- and post-assessments designed to measure growth and inform instruction
- Formative and informal assessments to monitor progress and address the need for reteaching
- Ongoing feedback provided daily and weekly, with opportunities for collaboration between Imagine Learning and your school or district
- Opportunities for students to enter and exit small groups at the change in your school's grading period based on individualized data
- Access to 1:1 On-Demand Tutoring
