

FOR GRADES PreK–12

Imagine Ascend™

Ignite learning breakthroughs for
students with disabilities

Increase staff capacity and graduation rates with digital courseware and instructional services

The Imagine Ascend™ portfolio addresses two critical needs that challenge special education programs: sustainable answers to staff shortages and equitable approaches to increase student success and graduation rates.

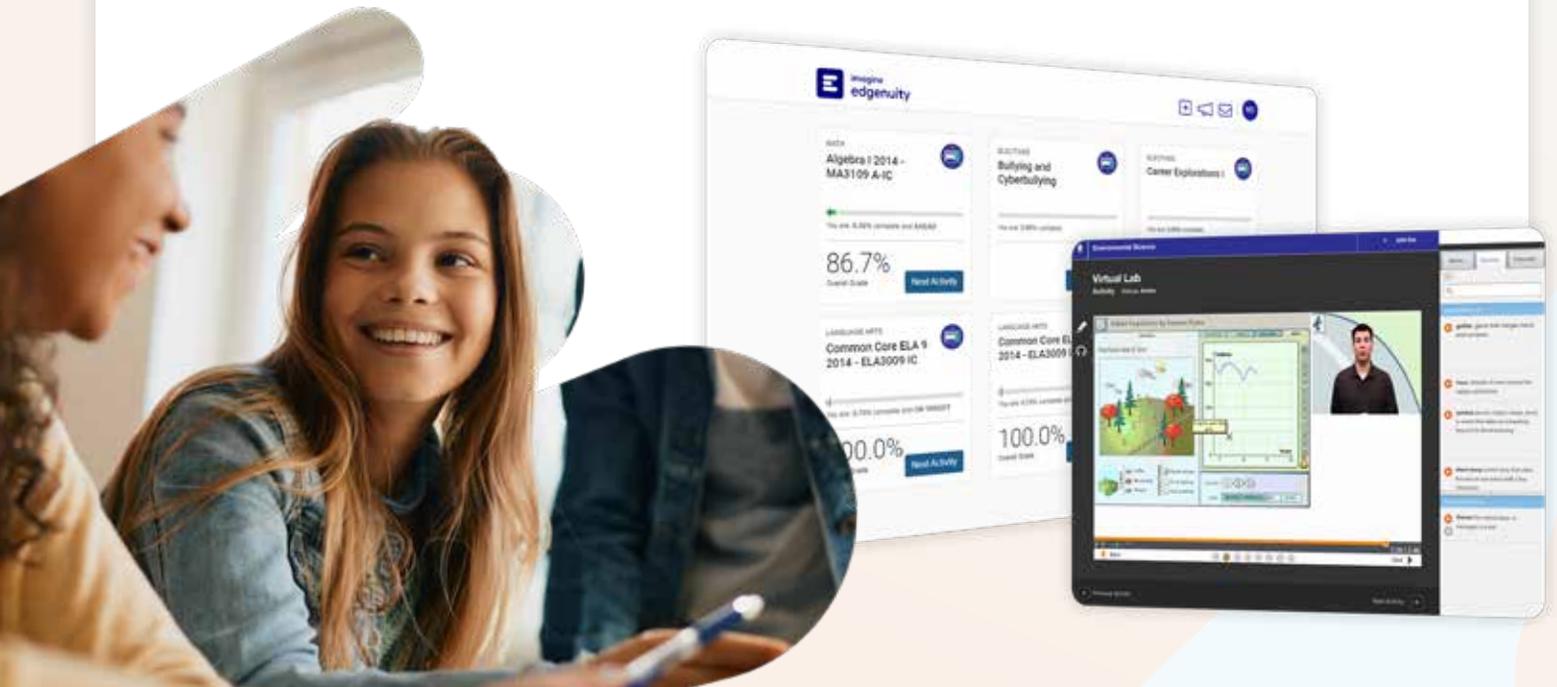

Our powerful, comprehensive service combines digital courseware with highly qualified online educators to provide learners with the accommodating instruction and supportive community they need to meet IEP goals.

COURSEWARE

Powerful digital courseware tools differentiate high school instruction for initial credit and credit recovery

Shaped by extensive research, industry experts, and educators, Imagine Learning courseware offers effective and engaging instructional models. Embedded supports and scaffolds ensure that all students experience learning breakthroughs.

- Now including an all-new *Exceptional Student Course Suite* with 15 courses across mathematics, language arts, science, and social studies
- Reorder, remove, and add content to align courses to your school or district's scope and sequence
- Add your own activities or create modules for grade improvement, remediation, or competency-based learning to personalize courses for your students
- Customize assessment settings for test time completion, passing threshold, and grade weights; customize course settings for read-aloud, translation, and other supports

SPECIALIST SERVICES

Exceptional Education Resource Specialist Services — a cohesive support system for home and school

When partnering with Imagine Learning Instructional Services, the Resource Specialist can coordinate with the student's IEP team to provide feedback on student progress toward IEP goals and potential modifications.

- Foster a nurturing partnership between families and schools
- Provide ongoing feedback to students and families about progress
- Address student goals as identified in their learning plan and provide assistance with student coursework

Speech Teletherapy — Provide equitable access to speech-language pathology support

Imagine Learning's nationally certified, fully licensed speech-language pathologists will provide teletherapy services to meet students' IEPs.

- Address the shortage of certified and licensed speech-language pathologists
- Provide federally mandated IEP minutes for each student
- Identify and evaluate students who may need speech and/or language therapy
- Meet all local, state, and federal special education compliance mandates
- Complete all compliance case management activities according to district directives

Effective, Structured Reading Intervention

Winsor Learning is now part of Imagine Learning.

The Sondag System®, their proven method for reading intervention, helps educators identify, intervene with, and help struggling readers catch up using proven multisensory instruction grounded in the Science of Reading.

Increase Your Impact for All Learners

Imagine Language & Literacy

Help prevent overidentification of English language learners as special education students

Imagine Language & Literacy® is the only personalized learning program that accelerates both literacy skills and English language development for students in grades PreK–6.

- The research-based design provides instruction and practice in all the critical domains of literacy, delivering explicit, targeted instruction
- As students explore and practice skills, their individualized learning sequence adjusts dynamically to maximize their engagement and progress
- The program uses human-voiced audio supports in 15 languages, plus specialized instruction based on the student's language of strength

Small Group Targeted Instruction

Address learning loss with your Tier 2 students with quality interventions

With Imagine Learning's online Small Group Targeted Instruction for math and ELA, you can help address the challenge of staff shortages and guarantee that state-mandated intervention time is met.

Available for grades 3–12 — students in a small group also receive On-Demand Tutoring seven days a week.
