

Back to School 2025

We're setting the industry standard for courseware and digital curriculum and offering new features and content that support administrators, teachers, and students.

New! Spanish audio tracks for videos

Students in Imagine EdgeEX™ courses can choose to hear all audio in Spanish, providing robust home language support for Spanish-speaking students in math, language arts, science, and social studies.

New! Proctorio lockdown browser

This academic integrity tool can be enabled for one or more schools in your district to provide a secure environment for quizzes, tests, and exams. The lockdown browser, available for both Imagine Edgenuity® and Imagine EdgeEX, blocks students from opening other tabs and blocks scripts and extensions during assessments.

New Imagine EdgeEX features

- **Section Gradebook:** view activity scores for all students in a section and export data for easy integration with external gradebooks
- **Course Management Enhancements:** set course options for multiple courses at a time
- **Author/Add Original Activities:** create your own writing, speaking, and upload activities and add them to Imagine EdgeEX courses

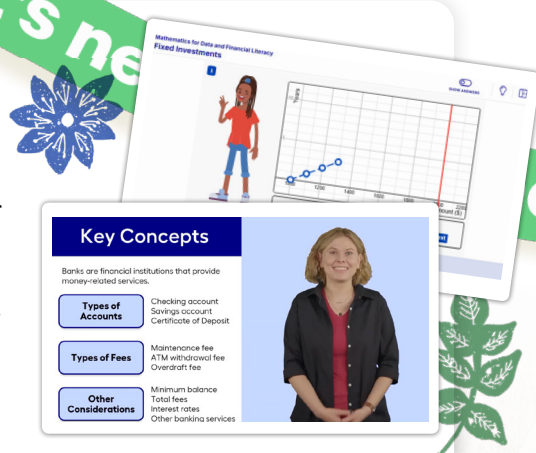

New admin reports

- **Gradebook:** provides activity-level data for all courses
- **Attendance:** shows daily active time and completed activities for all courses
- **Imagine EdgeEX Course Options:** displays how course options are set for all Imagine EdgeEX sections

New Imagine EdgeEX courses

Mathematics for Data and Financial Literacy (*Full-year, only available in Imagine EdgeEX*) Engage students in the mathematics behind credit, investing, budgeting, and other financial topics. This course replaces Financial Math and will be released in some states with state-specific titles (e.g., Mathematical Reasoning for Decision Making, Advanced Financial Algebra, Math for Personal Finance).
