

Building Classroom Community

End-of-Year Reflection

As you wrap up the year, take a moment to reflect on your classroom community.

- How did your classroom community support student learning?
- What strategies helped build a positive learning environment?
- What challenges did you face in fostering collaboration and engagement?
- What will you continue or change next year to strengthen your classroom community?

Cultivate Community Activity

- Review Unit 1 to identify how community building is integrated.
- Find and list strategies that support a positive mathematics community.
- Consider how these strategies impacted student collaboration, engagement, and learning.
- Decide what you will continue, adapt, or change next year to strengthen your classroom community.
