LESSON PLAN EVALUATION FRAMEWORK

Teaching in the Age of AI – Module 1

Use this template to evaluate the quality, alignment, and readiness of lesson plans created with generative AI. Enter key lesson details, then reflect on the prompts below to determine whether the plan is instructionally sound and classroom-ready. Check off each question as you evaluate the lesson plan. Add any notes if you need to make corrections or adjustments.

Lesson Details

Standard(s)	
Lesson Objective(s)	
Curriculum Resources/Materials	
Intended Grade Level/Subject	

Alignment & Accuracy

☐ Does the lesson align with the identified standard(s) and objective(s)?

☐ Are the facts, examples, and explanations accurate?

☐ Are there any potential misconceptions or errors?

Instructional Design

☐ Is there a clear learning sequence (introduction, instruction, practice, closure)?

☐ Does the lesson include opportunities for active student engagement?

☐ Are there checks for understanding or formative assessments built in?

Culturally Responsive and Inclusive Practices

☐ Is the content culturally responsive and free from bias or stereotypes?

☐ Does the lesson include multiple perspectives or voices?

☐ Does it foster an inclusive classroom environment?

Practicality and Feasibility

☐ Are the time expectations reasonable for one class period?

☐ Are the materials and resources accessible to both the teacher and students?

☐ Is the plan realistic, given classroom constraints?

Teacher Judgment

☐ What adjustments would you make before using this lesson?

☐ Does the lesson reflect your professional judgment and instructional style?

☐ Would you feel confident delivering this lesson as written?

Final Decision

☐ Ready to Use

☐ Use with Revisions

☐ Not Ready
