sonday system

Back to School 2026:

## What's New for Imagine Sonday System

Strengthen access, usability, and scalability for structured literacy intervention with new Imagine Sonday System upgrades and enhancements.

### Sonday System Secondary 1

imagine  
sonday system 1  
secondary

Introducing Sonday System Secondary 1 for grades 4 and above. Based on the trusted Sonday System 1 scope and sequence, this new version delivers the same instructional quality with an updated and modern design for older students, with:

- An updated slide structure to enhance engagement
- All-new age-appropriate decodable readers and songs
- Updated graphics

### Expanded instructional services

Instructional  
Services

These two new instructional services now provide remote Imagine Learning instructional staff to remove common implementation barriers and support faster, more efficient implementation of Imagine Sonday System:

#### Placement Test Administration

To reduce time spent on placement testing, Imagine Learning can provide support with:

- Administration of Imagine Sonday System placement tests
- Scoring and data entry
- Scheduling coordination with your site administrator

#### Instructional Delivery

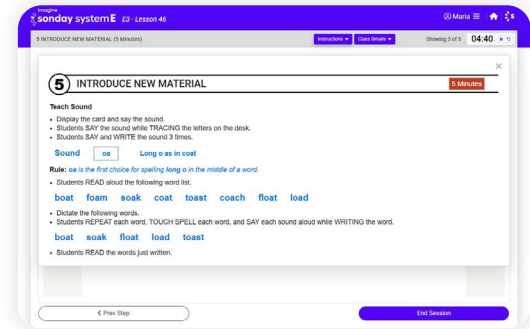

- Remote delivery of Imagine Sonday System Levels 1 and 2, led by certified intervention specialists trained in the Orton-Gillingham approach, expands capacity without requiring additional internal staffing.

## Usability enhancements

### Refreshed Reporting HUB

The central destination for accessing Imagine Sondag System data, the Reporting HUB, features a new look and feel, delivering a more intuitive, streamlined experience, with:

- Improved organization for easier access to and interpretation of key data
- Administrator access to student, class, and teacher data
- Additional reports, including:
  - Usage, Placement, Growth, and Mastery

### New single-screen display mode

Find single-screen mode directly within the Essentials experience, allowing teachers to deliver whole-class instruction while data is automatically captured.

### New school year transition wizard

A guided end-of-year cleanup and rollover process to support streamlined data management, automatically archive users, and ensure a smoother start to the new school year.

### New Clever and ClassLink integrations

Student sign-in supports ClassLink and Clever integration.

## New content to support reading progress

Imagine Sondag System 2 expands the progression of decodable readers across beginning levels through advanced instruction, providing consistent, high-quality texts at every stage and supporting intentional, skill-aligned practice, with:

- New decodable readers for Levels 1–5
- A teacher-led activity guide for each reader
