

Special Education Solutions

Literacy, intervention, and staffing solutions for learners with diverse needs

Build Capacity for Sustainable, Equitable Special Education

Scalable solutions that expand staffing and instructional support

Schools face growing special education demands amid persistent staffing shortages, increasing compliance requirements, and widening equity gaps. Sustainable solutions must expand capacity without compromising quality, ensuring every learner receives timely, consistent, and appropriate support.

Partner with Imagine Learning to:

- Solve staffing shortages with certified SPED teachers, interventionists, and coordinators
- Implement research-based practices aligned to structured literacy and the science of reading
- Strengthen MTSS/RTI and IEP planning with clear, actionable data
- Deliver consistent, equitable instruction across inclusion, resource, and self-contained settings
- Reduce educator workload with ready-to-teach lessons, adaptive practice, and integrated services
- Ensure access to grade-level content for students with diverse learning needs

Research-Based Solutions for Every Learner

Flexible programs designed to meet diverse learning needs

Grades PreK–3

Early literacy and dyslexia screening

Early identification for timely intervention

Quickly uncover dyslexia risk and early reading challenges with Imagine+ EarlyBird Screener's engaging, adaptive assessment experience that gives educators clear, comprehensive, research-backed insight into each child's foundational literacy skills — so intervention can begin before reading challenges become lasting barriers.

- Identifies risk early with comprehensive, science-of-reading skill coverage
- Fast, game-based, and easy to administer — no special training needed
- Research-validated, adaptive design with AI-driven scoring
- Provides clear, actionable next steps and resources to guide immediate intervention

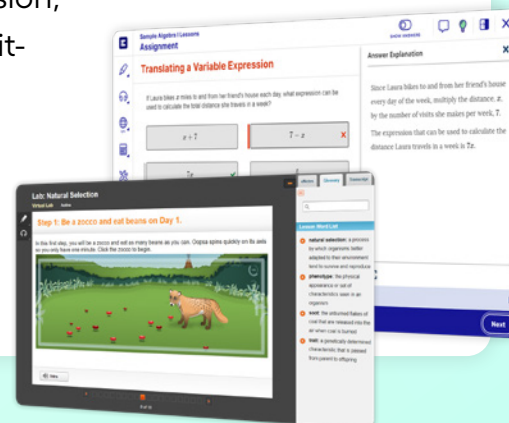

Grades 6–12

Accessible digital curriculum

Flexible instruction across learning environments

Imagine Edgenuity® offers effective, engaging instructional models with embedded supports and scaffolds that are flexible enough for inclusion, resource, self-contained, hospital/homebound, and credit-bearing settings. Offering:

- 24 courses across core subjects
- Editable content: reorder, remove, and add materials
- Flexible activity and module creation
- Customizable assessments to meet student needs

Literacy development

Personalized literacy growth for diverse learners

Imagine Language & Literacy® is a personalized learning program designed to accelerate both literacy skills and English language development, helping prevent overidentification of English learners (ELs) for special education services. Support for students with diverse needs includes:

- Instruction and practice across all critical domains of literacy
- Dynamic adaptivity that adjusts as students learn and practice
- First language audio supports in 20 languages

Reading intervention

Structured support for struggling readers

Imagine Sondag System is a structured, Orton Gillingham-based approach to reading intervention. Stage-based content and multisensory instruction grounded in the science of reading empower educators to help struggling readers catch up and keep going.

- Explicit, cumulative instruction aligned to foundational reading skills
- Multisensory routines that are simple to deliver with consistency
- Clear pathways for small group, pullout, and classroom intervention
- Digital tools simplify administration even across multiple schools

Special Education Services That Meet Growing Demands

Reliable staffing support for K–12 instruction, intervention, and IEP services

Grades K–12

Special education instruction

Consistent instruction delivered by certified educators

Special Education Teachers of Record provide consistent, standards-aligned instruction for students with IEPs in both inclusive and self-contained settings.

- Lead engaging 1:1 and small-group instruction using the Exceptional Education Course Suite curriculum
- Support growth in core academics and executive functioning
- Partner with school teams to maintain instructional continuity and compliance

Pull-out resource support

Targeted instruction aligned to IEP and EL goals

Exceptional Education Resource Specialists deliver targeted online instruction that helps SPED students and English learners build confidence and achieve growth.

- Provide individualized or small-group instruction aligned to IEP and EL goals
- Offer up to 120 minutes per week of targeted intervention outside core classes
- Strengthen academic skills, learning strategies, and executive functioning

Speech-language pathology

Licensed speech-language services to meet IEP speech minutes

Licensed, nationally certified Speech-Language Pathologists (SLPs) provide online therapy and evaluation services that help schools maintain compliant speech service delivery.

- Deliver speech-language therapy aligned to student IEPs
- Provide comprehensive speech-language evaluations
- Maintain clear documentation and reporting on service delivery

Case management

Dedicated case management support for compliant IEP processes

IEP Case Management Specialists provide additional capacity to help districts manage IEP timelines, documentation, and meetings while supporting compliant, student-centered processes.

- Manage IEP timelines, documentation, and required processes
- Draft and revise IEPs to meet district, legal, and instructional standards
- Lead and coordinate IEP meetings with families and multidisciplinary teams

Program coordination

Dedicated oversight to ensure fidelity and compliance

Exceptional Education Coordinators ensure schools implement accommodations and modifications with fidelity, keeping every plan on track.

- Communicate IEP, 504, and EL plan modifications to instructional teams
- Support educators in delivering services and preparing for meetings
- Monitor compliance and ensure supports are implemented consistently across school teams

**Tutoring & Intervention
Services**

Grades K-12

Small group intervention

Flexible intervention support across subjects and grade levels

Intervention Specialists deliver high-quality small-group instruction across math, ELA, science, social studies, English language development, and test prep.

- Bridge learning gaps and meet state-mandated intervention requirements
- Encourage students to take advantage of included On-Demand Tutoring, available seven days a week
- Offer consistent, targeted support across grades K-12

Expand capacity, support compliance, and deliver equitable special education with flexible programs and instructional services.
