# Flexible Professional Learning

## Built for Today's Classrooms

We've expanded our Professional Learning offerings to better support how educators learn today, providing flexible, ongoing access to learning that fits their needs, schedules, and roles.

Whether educators are getting started, refreshing their knowledge, or deepening implementation, they can now engage in learning **in multiple ways while working toward the same outcomes.**

### Flexible Learning. Consistent Outcomes.

No matter how educators engage — through live sessions or self-paced courses — they will experience **aligned content designed to support successful implementation and stronger student outcomes.**

## Community Learning Sessions

Live, expert-led virtual sessions offered multiple times throughout the year, giving educators flexible options to join interactive training that fits their schedule.

### Scheduled topics:

#### School Year 2026–2027 Offerings

Imagine Learning Product	Self-Paced Courses
Imagine School Services	<ul style="list-style-type: none"><li>• Getting Started with Imagine School Services K–5</li><li>• Getting Started with Imagine School Services 6–12</li></ul>

### Product-Independent Self-Paced Courses:

These courses focus on high-impact topics like AI, literacy, and instructional alignment and are designed to support district-wide initiatives, independent of any specific product or curriculum.

#### Available topics:

- Leveraging AI with Teachers and Students
- The Science of Reading
- Introduction to Problem-Based Instruction

**Explore how these flexible options can fit into your district's approach to supporting educators.**
